Glasgow G33 4EN

## ENVIRONMENTAL POLICY

TBS Ltd are a medium sized Mechanical Services Contractor and Engineers, based in Glasgow, who provide mechanical engineering solutions and installations to our Clients throughout Scotland and Northern England. Our works involve on site installation of services and as a by-product produces packaging and off cut waste, as well as the requirement for disposal of strip out waste from refurbishment projects.

The Company recognises its responsibility to protect the environment and to comply with its legal responsibilities at all times. We are committed to legal compliance, continued improvement and prevention of pollution.

In particular we will:

- Reduce waste created as part of our working practice.
- Conserve energy and natural resources used in our operations.
- Use the most environmentally efficient method of transport for our goods and labour.
- Use only registered waste disposal companies for the removal of our waste.
- Use only certificated and registered companies for the removal and disposal of hazardous waste
- Keep records of all disposal of hazardous waste.
- Continually monitor the policy to ensure goals are being achieved.
- Annually review the policy to ensure its continued improvement and effectiveness.
- Ensure all employees are aware and take cognisance of the policy.

The undernoted has responsibility for the operation of this policy including its implementation, operation and review.
